

Online Order/Purchase

I received a partial delivery. What do I do?

It is possible that if multiple items are on the order, items may arrive at different times even if they have been shipped at the same time. This may be because of items being shipped from different warehouse locations. Another instance may be if a specific item is on backorder, this will be shipped when stock becomes available. If this is the case, an MLN Online team member will contact you and advise you about this occurrence.
